My School was closed for a long time because of  
Coronavirus.

Now it's safe, and we can go back to school!

When I go back to school it will be so much fun to see my friends and teachers.

Some things might be a little different when I go back to school.

When I get to school they will take my temperature before I go into the building to make sure I am not sick.

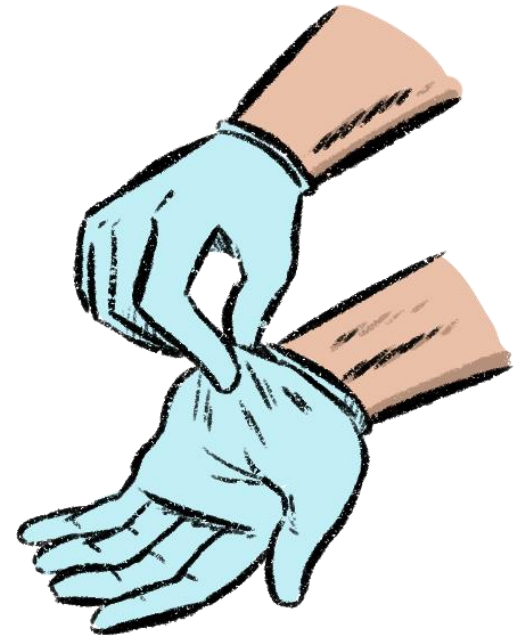

If I am sick I need to stay home and get better!

I will need to wear my mask!

My teachers will also be wearing masks. They might wearing face shields and gloves too.

Masks, face shields, and gloves help to keep germs from spreading and keeps everyone safe.

I will need to try my best to stay 6 ft away from my friends at school to help prevent spreading germs to my friends.

It's also important to keep my hands away from my face.  
So that I do not spread germs!

We will wash our hands a lot, and use hand sanitizers to keep germs off our hands.

Things may be different when we go back to school, but all of these changes will help keep us healthy. These changes will make it so we can be safe and have fun at school!
